**Briefly explain why are you interested in serving on this board or commission?**

I am a Fresno native, born and raised, and care deeply about the future of the City. I am especially interested in the Blackstone corridor and downtown and doing whatever I can to help in the process of success, positive community change. I live a few blocks from Blackstone and work downtown. See qualifications for more information.

**Educational background, Schools Attended, Degrees and Certifications**

B.S. Civil Engineering, San Francisco State University M.S. Transportation Management, San Jose State University Licensed Professional Civil Engineer #76520

**Briefly explain your qualifications or areas of demonstrated expertise for this board or commission.**

In my capacity as Vice Chancellor of Operations at State Center Community College District (SCCCD), I have worked to help bring the new face of Fresno City College to Blackstone and support efforts to improve this important 'spine' of the city. I also helped pushed the idea of moving our District Office to downtown Fresno to allow more synergy with the City, County, and FCOE with our District Office. We successfully purchased the Guarantee building and moved our staff downtown in 2018-2019. We see the need for downtown revitalization as a community and recognize the importance of a vibrant downtown for a city. My area/departments of responsibilities at SCCC include facilities planning, construction, maintenance, environmental health and safety, grounds, and our police department. SCCC passed Measure C, a \$485 million facilities bond, in 2016. Since then, we have completed and opened three new bond-funded facilities, moved our DO, in construction on three projects, and bidding/awarding three more fund funded projects this fiscal year. We have also been funded by the state an additional \$50 million to construction two child development centers and an applied technology facility.
