Comments: Thank you for contacting the City of Salinas Public Works department.

The City of Salinas Public Works Department has received your service request. The City has both a street maintenance/repair program and a restriping program. For major roadway maintenance the City does not have the ability to perform this work using its own forces and these services must be contracted out. With limited funds available for maintenance/repairs and restriping projects the City must determine which roads receive treatments each year. City Council will have final approval each fiscal year of the CIP Budget. Your service request will help inform these programs of locations to consider for maintenance/repair or restriping.
